

**SYLLABUS/CURRICULUM
AND
STRUCTURE OF QUESTION PAPER
FOR
PRE-VOCATIONAL SUBJECTS
10TH CLASS**

Time : 2 hrs.	THEORY	Marks : 30
Time : 3 hrs	PRACTICAL	Marks : 60
		CCE : 10

Total Marks:100

The question paper will comprise of three parts (Part-I, Part-II and Part-III). The question paper will be evenly distributed from the prescribed syllabus.

Part-I will consist of objective type questions carrying one mark each. The answer of each question should not exceed more than one sentence.

Part-II will consist of seven short answer type question carrying three marks each. Candidate will attempt any five questions out of these. A question may have two and more parts. The answer of each question should not be more than one page of the answer sheet.

Part-III will consist of two questions carrying five marks each. Candidate will attempt any one question out of these. A question may have two and more parts. The answer of each question should not be more than two pages of the answer sheet.

STRUCTURE OF QUESTION PAPER FOR PRACTICAL

Time: 3 hrs **Maximum Marks: 60**

Distribution of marks will be as follows:

(i)	Practical note book/sessional work/visits/project work.	10 Marks
(ii)	Viva Voice	10 Marks
(iii)	Actual Performance	40 Marks

Major Practical:

In all, three practical will be asked from the prescribed syllabus. Candidate will be asked to choose any two out of these. The Practical examiner will ask the candidate to perform any one practical out of the two chosen by him.

COURSE: KNITTING (HAND & MACHINE)

CLASS: X

Sr. No.	CONTENT/ACTIVITIES	LEARNING OUTCOMES	TEACHING/LEARNING METHODOLOGY	TIME (Periods)
1	2	3	4	5
1.	Knitting of Bawa suit on single bed hand knitting machine.	The pupil knows the methods of preparation of Bawa suit.	Explanation & demonstration	10
2.	Basic stitches in knitting (i) Plain stitch (ii) Rib stitch	The pupil knows about the basic stitches (with hand & machine)	Explanation & demonstration	10
3.	Winding of yarn, precautions to be kept during windings.	The pupil knows the winding of yarn.	Explanation & demonstration	8
4.	Knowledge of different types of yarn used in knitting i.e. cotton, wool & silk. Identification of these fibres through microscopic examination & burning test.	The pupil knows about the different types of yarn used in knitting industry. The pupil know about the identification of different fibres by burning test & microscopic examination.	Explanation & demonstration	12
5.	Introduction of hand socks knitting machine and required accessories.	The pupil i) Knows about the socks knitting machines. ii) Knows about various accessories their working.	Explanation & demonstration	9
6.	i) Explain the Cam parts of hand socks knitting machine. ii) Explanation with diagram the cylinder Cam-set of hand socks knitting machine.	The pupil i) knows about the Cam-parts of socks knitting machine. ii) knows about the knitting operation with the help of Cam set diagram.	Demonstration & explanation	11
7.	Method of making (i) Welt (ii) Rib (iii) Heel and Toe.	The pupil prepares welt, rib and heel and toe of socks.	Demonstration & explanation	10
8.	i) How to make full socks on hand socks knitting	The pupil prepares complete socks.	Demonstration & explanation	12

	machine. ii) Knowledge of various dimensions of socks.	The pupil knows about the various dimensions of socks.		
9.	Toe closing: Linking, Pressing, labelling, folding and packing of socks.	The pupil knows about linking, pressing, linking and packing of socks.	Demonstration	10
10.	Defecting that occur during knitting their causes and remedies.	The pupil understands various defects their causes & remedies.	Explanation & demonstration	8

PRACTICAL

COURSE: KNITTING (HAND & MACHINE)

CLASS: X

1.	Making of Bawa suit on single bed hand knitting machine.	The pupil performs the job of making Bawa suit.	Demonstration & actual practice	36
2.	Knowledge & Practice of wrapping yarn from hanks to bobbin	The pupil wraps yarn from hanks to bobbin	Demonstration & actual practice	12
3.	Identification & removal of the defects that occur during knitting	The pupil identifies removes the defects that occur during knitting.	Demonstration & actual practice	12
4	Identification of different types of yarn i.e. cotton, wool and silk by i) Microscopic examination ii) Burning test	The pupil identifies the different types of yarn with microscopic examination & burning test.	Demonstration & actual practice	12
5.	Disassembling and reassembling of the parts of socks knitting machine.	The pupil assembles, reassembles & cleans the socks knitting machines.	Demonstration & actual practice	12
6.	Identification for different types of cams of the socks knitting machine.	The pupil identifies the different types of cam of the machine.	Demonstration & actual practice	20
7.	Making of welt, rib, heel, & toe.	The pupil performs the job of making Welt, Rib, Heel & Toe.	Demonstration & actual practice	24
8.	Making of full socks with Rib & Elastic top.	The pupil performs the job of making full socks with elastic top.	Demonstration & actual practice	36
9.	i) Method of toe closing. ii) Linking, Pressing, Labelling, Folding and Packing of socks.	The pupil performs the job of finishing socks.	Demonstration & actual practice	24
10.	Making of Plain fabric & Rib fabric on machine.	The pupil knits Plain & Rib fabric.	Demonstration & actual practice	12

1	2	3	4	5
1.	Importance of fruit in diet, scope of fruit cultivation in Punjab.	The pupil i) Develops consciousness regarding value of fruits. ii) Understands the scope of fruit cultivation in Punjab.	Lectures, explanation, use of charts	4
2.	Selection of site and soil for fruit growing.	The pupil i) Knows the requisites for selection of site for fruit growing. ii) Understands the suitability of soil for fruit growing.	Lectures, explanation and visit to fruit growing or charts	4
3.	Planning and planting of an orchard-preparation of land; system of orchard; lay out; digging, refilling of pits; planting of trees.	The pupil i) knows how to prepare land for an orchard. ii) understand different systems of planting fruit plants iii) know how to play out a n orchard iv) can explain the method of digging and refilling of pits.	Lectures, use of charts, demonstration in the field.	10
4.	Propagation of fruit plants: see, cutting, layering, budding and grafting.	The pupil understands different methods of fruit propagation.	Explanation, demonstration	12
5.	Irrigation, manuring, and fertilization of fruit trees	The pupil knows	Explanation, use of charts	08

		i) different methods of irrigation ii) different methods of application of manures and fertilizers in an orchard.		
6.	Cultivation of fruit trees, i.e. Mango, Citrus, Grapes, Guava & Papaya.	The pupil understands how to grow different fruit plants.	Explanation	14
7.	Protection of vegetable and fruit plants from adverse weather conditions.	The pupil understands how to protect vegetable and fruit plants from sun-burn, sun scald and frost etc.	-Do-	06
8.	Weeds and their control.	The pupil i) can name different weeds ii) can explain their harmful effects on standing crops. iii) knows the methods of control of weeds.	Explanation	06
9.	Picking, packaging and marketing of fruits.	The pupil i) know how to pluck fruit from the trees. ii) can explain the method of packing of fruit iii) understands the system of marketing of fruits.	-Do-	08
10.	General techniques of preservation of fruits; preservation of fruits in the form of squashes, syrups and jams.	The pupil i) know the general techniques of preservation of fruits. ii) understands the general methods of preparation of squashes, syrups and jams.	Explanation & demonstration	08
11.	Growing of seasonal flowers and pot plants.	The pupil acquires knowledge to grow winter and summer seasonal flowers and pot plants	Explanation	08
12.	Growing of important ornamental trees, shrubs and climbers viz. Gulmohar, Amaltas , Bottle brush, Rose, Bogenvilla and ragoon creeper.	The pupil has the knowledge to grow ornamental trees, shrubs and climbers and is familiar with the methods of their cultivation.	-Do-	10
13.	Layout and maintenance of lawns	The pupil knows about the layout of lawns and their maintenance.	-Do-	02

PRACTICAL

1.	Drawing :- i) Orthographic projection :- Meaning of R.P. Quadrant 1 st angle projections, third angle projections (front view, side, top view)	The pupil i) knows differentiates and recognizes different orthographic projections.	Demonstration & explanation	12
	ii) Solid Geometry :- Orthographic projection of solid objects standing on horizontal plane with one of edge of the base as parallel , perpendicular and angular position with vertical plane. Section of solid made by horizontal parallel to xy.	ii) recognizes, names, differentiates between solids (cone, cylinder, prism and pyramids). iii) knows their projections at different angular positions.	Demonstration & explanation	17
2.	Building Construction:- (i) Masonry works :- Type of bricks, different type of bond i.e. English bond, Flemish bond, Types of masonry works. (ii) Measurement :- Reading of site plan, knowledge of the following instructions (a) Measuring tape and engineering chain. (b) Calipers, Vernier Calipers, Micrometer. (c) Line diagram of 4 points of electrical circuits. Brief introduction of electrical accessories used in house wiring.	The pupil knows, recognizes and differentiates different type of bricks and masonry work. The pupil knows, differentiates and recognizes and names the different instructions and reads them. The pupil knows about the electrical circuits, recognizes and differentiates its accessories used in house wiring.	Demonstration & explanation	12 22
2.	Duplicating :-	The pupil	Demonstration & explanation	17

	(i) Operating functions of following machines i.e. cyclostyle machine, Photostat machine, tracing table, sun frame, ammonia box.	i) knows the operation correctly of the duplicating machines.		
	ii) Objectives of tracing procedure of table tracing, Necessity of lamination, operating procedure of lamination machine.	ii) knows the objectives and procedure of tracing and understands the necessity & process of lamination and use of lamination machine.	Demonstration & explanation	20

1.	Information role in industry. Information, its importance and need. Difference between data & information to managers in decision making. Qualities of information, Categories of information .	The pupil a) understands the importance and need of role of information in industry. b) differentiates between data and information. c) knows and gives evidence of knowing qualities and categories of information.	Distinguishing detail & summary reports.	2
2.	Classification & History of computers. Micro, Mini, Main-frame and Super-Computers, Slide Rule, UNIVAC, ENIAC, EDSAC, Computer Generations.	The pupil knows the history of computers and can classify the evaluation of computers.	Audio-Visuals to show different computers on charts.	2
3.	Data Processing concepts. Origin of data, Input, Processing output, distribution, batch, on-line, real-time, processing.	The pupil understands different types of data processing activities.	Give examples on Railway booking, payroll etc.	2
4.	Numbering system. Decimal, Binary, Octal and Hexadecimal System and their inter conversion.	The pupil a) knows and gives evidence of understanding numbering systems. b) can do the inter conversions.	Exercise should be given	4
5.	Binary Arithmetic. Binary addition, subtraction, division & multiplication. Negative numbers and their storage techniques. Subtraction using complement	The pupil knows the Binary arithmetic and its uses.	Exercise should be given.	4

	method. Conversion of binary fraction to decimal fraction and vice-versa. Zoned and packed decimal numbers.			
6.	Recording Modes. BCD, Six bit, ASCII, EBCDIC Codes.	The pupil understands and exhibits the knowledge of recording modes.		4
7.	Boolean Algebra. Truth table, OR, AND, NOT, NOR, NAND, XOR logic gates.	The pupil understands and applies Boolean algebra.	Exercise on solving logical expressions.	4
8.	Computer packages. Introduction to spread sheets and database management packages.	The pupil understands and employs Computer packages.	Citing suitable examples.	.2
9.	Data Concepts. Physical and logical concepts of data, compiler, entity, attribute.	The pupil understands and explains the concepts.	Comparing the way data is stored on disk and retrieved on monitor.	2
10.	File Organization. Data items, record file, data base, serial, sequential, random and indexed sequential files.	The pupil correlates and applies the data storage with the application requirements.	Citing suitable examples, wherein such files are used like batch processing.	2
11.	Computer Communication. Twisted wire pairs, coaxial cable, microwave system, satellites, optical fibers, band-width, band rate, simplex, half-duplex, full-duplex, serial/parallel, asynchronous, synchronous transmission.	The pupil understands and uses communication techniques.	By giving examples wherein each media/method is used.	2
12.	Computer Networking. Protocols, LAN fundamentals and their classification, modem, bulletin board systems, E-mail, ISDN, NISDN, BISIN.	The pupil knows and explains sharing of data and other resources.	Demonstration/ charts may be used.	4
13.	Computer Application. Computer's role in office automation, education, business, banking, railways, research, printing, technology, medicine & communications, CAD,CAM, CAE, DTP, Expert systems, robots, tomography.	The pupil understands the application of computers in information technology.		2
14.	Advanced MS-DOS. Concepts of config.sys, autoexec.bat, batch files with parameters, io.sys, ms-dos.sys,	The pupil understands programming, applies various commands.	Demonstration followed by practical training.	8

	command.com, differences between internal and external commands, disk copy, format, chkdsk etc.			
15.	Basic Languages (advanced techniques) User defines functions, Multiline functions subroutines exercises, Files. Relative merits and demerits of random and sequential files. Program file and data file, Creating files using standard packages. Creating files using a BASIC program. EDF function. Reading a sequential file using a BASIC program. Important note about opening the file in input mode. Operational points. Random files. Pointers. Accessing a random file. Accessing records at random. Graphic functions.	The pupil understands and knows different types of files and graphs.	Sample programs and practical trainer.	58

COURSE: REPAIR & MAINTENANCE OF FARM POWER AND MACHINERY

CLASS: X

Sr. No. REQUIRED 1	CONTENT/ACTIVITIES 2	LEARNING OUTCOMES 3	TEACHING/LEARNING METHODOLOGY 4	TIME (Periods) 5
1.	a) Role of farm machinery in agriculture and its advantages.	The pupil is aware of farm machinery and its advantages.	Class room teaching.	4
	b) Conventional and non conventional source of farm power.	The pupil knows about the occurs of farm power.	„	4
	c) Advantages of biogas plant, solar cooker, smokeless chullah.	The pupil understand the advantage of a) biogas plant b) solar cooker c) smokeless chullah	„	4
2.	Introduction to land preparation equipment : Mould board, plough, disk harrow, cultivator, planker, straw cutter.	The pupil recognizes the kind and use of land killage tools/equipment.	Class room teaching and field demonstration.	5
3.	a) Introduction to seeding-planting-transplanting equipment.	The pupil knows the need and advantages of different planting and transplanting.	„	4
	b) Advantages and uses of seed cum fertilizer drill.			4
	c) Introduction to potato planters, sugarcane planters.			4
	d) Introduction to paddy transplanted.			4
4.	a) Introduction to thresher.	The pupil acquires knowledge of threshing practice for different crops.	Classroom teaching and field demonstration.	4
	b) Various systems of threshing: Feeding chute-threshing unit-blowing-cleaning of grains and bagging.			4
	c) Brief description of threshing machines chaff			4

	cutter-spike truth-drum type-hammers mill beater type.			
	d) Brief introduction to harvesting combines.			4
5.	a) Study of Hand and power operated sprayers and dusters.	The pupil know the and describe the use and operation of sprayers and dusters along with precautions.	Classroom teaching and field demonstration.	4
	b) Safety precautions while using K-napsack sprayer.			4
	c) Storage precautions			4
	d) Precautions while handling storage of insecticides.			4
6.	a) Introduction to diesel engine (Two stroke and four stroke).	The pupil acquires knowledge of construction and operation of diesel engine along with simple fault and their rectification.	Classroom teaching and demonstration.	4
	b) Constructional features of L engine.			6
	c) Principle of 4 stroke diesel engine.			6
	d) Diesel engine system: Fuel systems, water cooling system, force feed lubrication system.			6
	e) Trouble shooting- starting, air locking, smoky exhaust, engine overheating.			3
	f) Storage and handling of fuels/lubricants.			3
7.	a) Irrigation Methods: sprinkler irrigation – drip irrigation.	The pupil understands various irrigation methods and working of pumps.	”	4
	b) Working and main parts of centrifugal and submersible pumps.			”

2.	Skiving, folding and method of economical clicking.	The pupil explains skiving, folding and economical clicking.	„	14
3.	Sequence operation of new cut, goggle case, small ladies purse, chappal and cycle seat cover.	The pupil explains the sequence operation of new cut, goggle case, small ladies purse, chappal and seat cover.	„	8
4.	Cost calculations of simple leather goods for	The child is aware of the market trends of simple	Lecture, demonstration visit to	8

	i) personal use ii) sale	leather goods and can calculate their cost price and sale price.	factories and market.	
5.	Raw materials employed in leather goods industry and their proper uses with special reference to footwear industry.	The pupil knows how to select leather for specific purpose with special reference to footwear industry.	Lectures , demonstration and visits to small scale industrial units.	14
6.	General defects of hides and skins and remedial measures.	The pupil know the common defects of hides and skins and can explain remedial measures for the removal of defects.	Lectures, demonstration.	12
7.	Measurement of foot and simple knowledge of foot anatomy; common abnormalities of the foot.	The pupil i) knows the method of measurement of foot. ii) can describe common abnormalities in the foot.	„	18
8.	Workshop discipline and safety precautions.	The pupil i) enlists various safety precautions to be observed while at work. ii) knows the importance of maintaining proper workshop discipline.	Lecture, visits to workshops.	16

**PRE-VOCATIONAL CURRICULUM
PRACTICAL**

COURSE: MANUFACTURING OF LEATHER GOODS

CLASS: X

Sr. No. REQUIRED	CONTENT/ACTIVITIES	LEARNING OUTCOMES	TEACHING/LEARNING METHODOLOGY	TIME (Periods)
1	2	3	4	5
1.	Identification of various types of leather and their selection according to the requirements of the job.	The pupil identifies the common types of leather and selects the types according to requirement of the job.	Demonstration, learning by doing.	20
2.	Pattern cutting of new cut, goggle case, cycle seat cover, small ladies purse & chappal.	The pupil cuts patterns of simple leather goods mentioned in column 2.	Demonstration & learning by doing.	60
3.	Identification and use of equipment and tools employed in leather goods industry.	The pupil identifies the equipment and tools employed in the leather goods industry and use them according to the job requirement.	„	20
4.	Stitching (Hand & Machine)	The pupil makes stitches on leather by hand and by machine.	„	20
5.	Preparation of goggle case, cycle seat cover, key case, small ladies purse & chappal.	The pupil acquires workable skill to prepare simple leather items mentioned in column 2.	„	80

COURSE: WOOD CRAFT

CLASS: X

Sr. No. REQUIRED (Periods)	CONTENT/ACTIVITIES	LEARNING OUTCOMES	TEACHING/LEARNING METHODOLOGY	TIME
1	2	3	4	5
1.	a) Introduction to the timber such as Deoder, Kail, Partel, Sheesham, Babool and Mango etc.	The pupil explains the properties and uses of common types of timber	Explanation, Demonstration visits to timber markets and forests.	15
	b) Identification of wood by Colour, grains and smell.	The pupil has the knowledge of Colour, grains and smell of different types of wood.		15
2.	Conversion of timber into different shapes by hand cutting & sawing etc.	The pupil is well versed with the methods of converting timber into different shapes.	Demonstration Explanation	10
3.	The seasoning of wood and its importance; elementary knowledge of methods of seasoning; stacking of wood.	The pupil i) recognizes and compares unseasoned and seasoned wood. ii) explain the importance of seasoning. iii) describes various methods of stacking of wood.	Demonstration Explanation visits to seasoning plants.	20
4.	Defects in wood and their remedies.	The pupil i) has the knowledge of various defects in wood. ii) explains the elementary methods for the removal of defects.	Demonstration Explanation	15
5.	Measuring of wood.	The pupil measures wood correctly in shape & size.	Demonstration Explanation Supervision	05
6.	Introduction to common fasteners and fittings such as nails, screws, nuts & bolts, dowels etc.	The pupil has the knowledge of various types of fasteners and fittings commonly used in wood craft.	Display Demonstration Explanation	05

7.	Importance and introduction to the methods varnishing, painting and finishing.	The pupil understands the importance and methods of varnishing, painting and finishing.	Demonstration Explanation Supervision	05
8.	Types of glue, animal glue, fevicol and their specific used in wood craft.	The pupil i) know how to identify different types of glue. ii) is familiar with their specific uses.	Demonstration Explanation	05
9.	Introduction to the importance and uses of play wood and mica.	The pupil has the knowledge of importance and uses of play wood mica.	Display Explanation	05

THEORY

1	2	3	METHODOLOGY 4	(Periods) 5
1.	General introductory Lectures, fundamentals of electricity, application of alternating and direct current electricity, difference between the two.	The pupil acquires knowledge of fundamental concept of electricity AC and DC.	Lecture Method	6
2.	Resistors: types, Units and Colour code; parallel and series circuits.	The pupil learns all types of resistance and their Use.	Lecture and demonstration Method	10
3.	Capacitor: Types, Units and Colour code; parallel and series circuits.	The pupil gains knowledge of capacitors.	„	10
4.	Inductors; Types of inductors, transformers and types of transformers	The pupil acquires knowledge of different types of inductors and transformers.	Lecture and practical demonstration.	10
5.	Introduction to magnetism, electromagnetic induction, their properties and uses.	The pupil acquires the knowledge of relays and their use in electronics.	By demonstrating relays.	6
6.	Semiconductors, conductors and insulators; Pure and impure semi-conductors; p-N junction; Diodes, NPN, and PNP transistors.	The pupil acquires knowledge of semiconductor materials:- as Diodes, transistors and ICs.	Lectures and demonstration	6
7.	Rectification: Types of rectifiers, (half-wave, full wave and bridge type)	The pupil knows the operation of circuit which converts AC into DC and its use in electronics.	„	15
8.	TV frequency bands and channels VHF (low), VHF (high) and UHF.	The pupil has the knowledge of various frequencies used in TV system.	Lecture	8
9.	Block diagram of TV receiver (B&W); function of each block.	The pupil has the knowledge of video signals; its reception and re-production into a picture.	Lecture	25

**PRE-VOCATIONAL CURRICULUM

COURSE: ELECTRONIC TECHNOLOGY

CLASS: X

Sr. No. REQUIRED	CONTENT/ACTIVITIES	LEARNING OUTCOMES	TEACHING/LEARNING METHODOLOGY	TIME (Periods)
1	2	3	4	5
1.	Study of radio tools and safety precautions.	The pupil identifies different radio tools, uses them properly taking necessary safety precaution.	Demonstration & discussion, Learning by doing	10
2.	Soldering and de-soldering practices.	The pupil acquires workable skills of soldering and de-soldering.	„	20
3.	Use of different types of multi meters (AVO meters), digital meter.	The pupil skillfully uses different types of multi meter (AVO meters), digital meter.	„	20
4.	Assembling power extension-board with series	The pupil acquires skills for lubrications of extension-	„	20

	test-lamp, neon indicator and fuse.	board and attains the knowledge of house-wiring.		
5.	Measurement of resistances and ceramic capacitors by Colour code method, verification with multi meter.	The pupil acquires skills to read the value of resistances and capacitors by Colour-code, practices proper use of multi meter.	„	10
6.	Connecting the resistance in series and parallel-measuring the resultant value.	The pupil practically learns calculating the value of resistance, in parallel and series.	„	10
7.	Assembling disco-light circuit.	The pupil learns connections and operation of LED's.	„	10
8.	Assembling Hero-Honda horn using IC 3561.	The pupil acquires skill to use IC's in electronic circuits.	„	15
9.	Assembling L-plate transistor radio receiver.	The pupil does PCB soldering and circuit wiring.	„	30
10.	Operation of TV front panel controls (B&W and Colour).	The pupil employs tuning-techniques to obtain good picture on TV screen.	„	15
11.	Installation of my antenna.	The pupil acquires the skill to install TV antenna.	„	15
12.	Use of controls on RF/AF signal generators.	The pupil learns the use of any type of signal-generators.	„	15

COURSE: WEAVING TECHNOLOGY

CLASS: X

Sr. No.	CONTENT/ACTIVITIES REQUIRED	LEARNING OUTCOMES	TEACHING/LEARNING METHODOLOGY	TIME (Periods)
1	2	3	4	5
1.	Process of weaving : - Comparative study of weaving. - Handloom weaving & modern trends in weaving.	The pupil understands various types of weaving & knows about different modern-trends in weaving.	Use of charts & films.	8
2.	Preparatory Processes : Methods of sectional warping. - Names & functions of different parts of sectional warping on machine.	The pupil understands the method of sectional warping and parts of the machine. Pupil takes the necessary precautions.	Demonstration, discussion & Mill visits.	18

	- Precautions to be kept in mind while sectional warping.			
3.	Functions of Handloom : - Names & functions of different parts of Frame type fly shuttle loom. -Primary & secondary motions of simple handloom	The pupil understands the functions of different parts of frame type fly shuttle loom and also the synchronicity between different motions.	Demonstration & explanation	18
4.	Graphical Designing : - Constructor of plain, will twill weave with draft & peg plan. - Construction of satin & sateen weaves with draft & peg plan.	The pupil understands graphical designing of twill weave, satin & sateen weave etc.	Demonstration & Explanation	12
5.	Textile Fibers : - Identification or wool & silk fibers by physical testing.	The pupil identifies & tests different fibers by touching & chemical testing.	Display & Demonstration	16
6.	Textile calculations : - Calculations of read count. - Calculations of total no. of warp threads, no. of section, width of sections, no. bobbing & total length of yarn.	The pupil attains numerical ability regarding warp calculations of various types.	Demonstration explanation & repetitive exercises	12
7.	Cloth Defects : - General defects in cloth during weaving & their remedies.	The pupil acquires knowledge about defects during cloth weaving & their rectification.	Explanation	16

1.	Layout of a scooter/ Motor cycle repair shop.	The pupil prepares a rough sketch of layout of a scooter/ motor cycle repair shop and enlists the various tools and equipment.	Demonstration and practice by the students	6
2.	Factors taken under consideration while setting of a Scooter Motor Cycle repair shop	The pupil enlists the Factors to be kept in view while setting a Scooter and Motor cycle repair shop.	„	5
3.	Valve lapping.	The pupil undertook valve lapping.	„	6
4.	Setting of Valve tappet clearance.	The pupil sets valve tappet clearance.	„	6
5.	Setting of Value timing	The pupil sets valve timings.	„	6
6.	To change an oil filter.	The pupil changes oil filter.	„	8
7.	Checking two tyre pressures.	The pupil checks tyre pressure.	„	6
8.	Brake adjustment.	The pupil undertakes brake adjustment.	„	8
9.	Brake shoe relining.	The pupil checks brake shoe relining.	„	6
10.	Adjustment of head light.	The pupil adjusts head light.	„	8
1.	Carburetor Servicing.	The pupil undertakes Carburetor servicing.	„	12
2.	Cleaning of C.B. point and adjusting gap.	The pupil cleans C.B. point and adjusts the gap.	„	8
3.	To change piston and piston rings.	The pupil changes piston & piston rings.	„	6
4.	Battery testing of Ignition timing.	The pupil employs hyetometer for testing battery.	„	8
5.	Checking and testing of Ignition timing.	The pupil checks and sets ignition timing.	„	8
6.	Servicing of a multiplate clutch.	The pupil undertakes servicing of a multiplate clutch.	„	12
7.	Servicing a centrifugal clutch.	The pupil undertakes servicing of a centrifugal clutch.	„	12
8.	Servicing a gear box.	The pupil services a gear box.	„	12
9.	Replacing a shock absorber.	The pupil replaces a shock absorber.	„	10
10.	Replacing a punctured tube.	The pupil repairs a punctured tube.	„	10
11.	Fault finding and lighting system.	The pupil finds fault in the lighting system.	„	12
12.	Adjusting a horn.	The pupil can adjust a horn.	„	7
13.	Engine tuning.	The pupil tunes the engine.	„	6
14.	Precautions before starting an engine.	The pupil takes precaution before starting and stopping an engine.	„	6

15.	Starting and stopping engine.	The pupil can start and stop engine in the correct manner.	„	6

	8. ਦਫ਼ਤਰੀ ਸੇਵਾਵਾਂ-ਫਾਈਲਿੰਗ ਅਨੁ-ਕ੍ਰਮਣਿਕਾ	ਵਿਦਿਆਰਥੀ ਵੱਖ-ਵੱਖ ਦਫ਼ਤਰੀ ਸੇਵਾਵਾਂ-ਫਾਈਲਿੰਗ ਅਨੁਕ੍ਰਮਣਿਕਾ ਕਾਰਜ ਤੋਂ ਜਾਣੂ ਹੋਵੇਗਾ।	ਉਕਤ	ਕਾਗਜ਼,ਫਾਈਲ ਕਵਰ, ਪੰਚਿੰਗ ਮਸ਼ੀਨ, ਟੈਗ, ਕਲਿੱਪ	ਉਕਤ	
	9. ਟੈਲੀਫੋਨ ਸੁਵਿਧਾ-ਟੈਲੀਫੋਨ ਦੀ ਵਰਤੋਂ	ਵਿਦਿਆਰਥੀ ਟੈਲੀਫੋਨ ਦੀਆਂ ਸੁਵਿਧਾਵਾਂ ਦਾ ਗਿਆਨ ਰੱਖੇਗਾ।	ਉਕਤ	ਟੈਲੀਫੋਨ, ਇੰਟਰਕਾਮ, ਟੈਲੀਫੋਨ ਡਾਇਰੈਕਟਰੀ, ਨੋਟ-ਬੁੱਕ, ਪੈਨਸਿਲ, ਟੈਲੀਫੋਨ ਸੈਟ	ਉਕਤ	

**ਪ੍ਰੀ-ਵੋਕੇਸ਼ਨਲ ਕਰੀਕੁਲਮ
ਪ੍ਰਯੋਗੀ
ਕਲਾਸ : 10 ਵੀਂ**

ਪਾਠ-ਕ੍ਰਮ : ਮੁੱਢਲੇ ਦਫ਼ਤਰੀ ਕਾਰਜ ਅਤੇ ਸਟੈਨੋਗ੍ਰਾਫੀ

(ੳ) ਟਾਈਪ

- ਵਿਦਿਆਰਥੀ 15 ਸ਼ਬਦ ਪ੍ਰਤਿ ਮਿੰਟ ਦੀ ਰਫ਼ਤਾਰ ਤੇ 150 ਸ਼ਬਦਾਂ ਦਾ ਪੈਰਾ ਦਸ ਮਿੰਟ ਵਿੱਚ ਟਾਈਪ ਕਰੇਗਾ।
(ਇਹ ਪੈਰਾ, ਪੰਜਾਬ ਸਟੇਟ ਯੂਨੀਵਰਸਿਟੀ ਟੈਕਸਟ ਬੁੱਕ ਬੋਰਡ ਵਲੋਂ ਪ੍ਰਕਾਸ਼ਿਤ ਪਾਠ-ਪੁਸਤਕ "ਪੰਜਾਬੀ ਟਾਈਪ-ਰਾਈਟਿੰਗ ਵਿੱਚ ਹੋਵੇਗਾ)
- ਸਿਖਲਾਈ ਦੌਰਾਨ ਵਿਦਿਆਰਥੀ ਵਲੋਂ ਕੀਤੇ ਕਾਰਜ ਦੀ ਇਕ ਫਾਈਲ ਜੋ ਘੱਟੋ-ਘੱਟ 100 ਟਾਈਪ ਕੀਤੇ ਪੰਨਿਆਂ ਦੀ ਹੋਵੇਗੀ ਪ੍ਰੀਖਿਆ ਸਮੇਂ ਵਿਖਾਵੇਗਾ। ਇਹ ਫਾਈਲ ਅਧਿਆਪਕ ਵਲੋਂ ਬਕਾਇਦਾ ਮਿਤੀਵਾਰ ਲੈਸਨ ਪਲੈਨਿੰਗ ਦੇ ਆਧਾਰ ਤੇ ਚੈੱਕ ਕੀਤੀ ਹੋਵੇ।

(ਅ) ਸ਼ਾਰਟ ਹੈਂਡ

(ੳ) ਸਕਿਲ

(ਅ) ਅਭਿਆਸ

- ਵਿਦਿਆਰਥੀ ਨਿਸ਼ਚਿਤ ਪਾਠਾਂ ਤੱਕ 200 ਸ਼ਬਦਾਂ ਦੇ ਸ਼ਬਦ-ਜੋੜ ਡਿਕਟੇਸ਼ਨ ਲਿਖ ਕੇ ਵਿਦਿਆਰਥੀ ਸ਼ਬਦਾਂ ਦਾ ਸਕਿਲ ਪੰਜਾਬ ਸਟੇਟ ਯੂਨੀਵਰਸਿਟੀ ਟੈਕਸਟ-ਬੁੱਕ ਬੋਰਡ ਵਲੋਂ ਨਿਰਧਾਰਿਤ ਪਾਠ ਉਸ ਦਾ ਟਾਈਪ ਮਸ਼ੀਨ ਤੇ ਲਿਪੀ-ਅੰਤਰ ਕਰੇਗਾ। ਸਮਾਂ: 30 ਮਿੰਟ ਪੁਸਤਕ "ਪੰਜਾਬੀ ਸਟੈਨੋਗ੍ਰਾਫੀ" ਵਿੱਚੋਂ ਪ੍ਰਾਪਤ ਕਰੇਗਾ।
- ਵਿਦਿਆਰਥੀ ਪ੍ਰੀਖਿਅਕ ਨੂੰ ਘੱਟੋ-ਘੱਟ ਪੰਜ ਸ਼ਾਰਟ ਹੈਂਡ ਨੋਟ-ਬੁੱਕਾਂ ਜੋ ਅਧਿਆਪਕ ਵਲੋਂ ਚੈੱਕ ਕੀਤੀਆਂ ਹੋਣਗੀਆਂ, ਵਿਖਾਵੇਗਾ।

(ੲ) ਦਫ਼ਤਰੀ ਕਾਰਜ-ਵਿਧੀ

- ਦਫ਼ਤਰੀ ਕਾਰਜ ਨਾਲ ਸਬੰਧਿਤ ਸਾਜ਼-ਸਮਾਨ ਤੇ ਕਾਰਜ-ਵਿਧੀ ਬਾਰੇ ਵਿਦਿਆਰਥੀ ਵਲੋਂ ਪ੍ਰਸ਼ਨ ਜ਼ਬਾਨੀ ਪੁੱਛੇ ਜਾਣਗੇ (ਵਾਈਵਾ)।

(ਸ) ਕੰਪਿਊਟਰ (ਪ੍ਰੈਕਟੀਕਲ)

1. ਅਧਿਆਪਕ ਵਿਦਿਆਰਥੀ ਤੋਂ ਕੰਪਿਊਟਰ ਬਾਰੇ ਮੁੱਢਲੀ ਜਾਣਕਾਰੀ ਸਬੰਧੀ ਵਾਈਵਾ ਅਤੇ ਕੰਪਿਊਟਰ ਟਾਈਪ-ਰਾਇਟਿੰਗ ਕਰਵਾਏਗਾ।
2. ਵਿਦਿਆਰਥੀ ਕੰਪਿਊਟਰ ਤੇ ਟਾਈਪ ਕਰਨ ਲਈ ਸਧਾਰਨ ਮੁਹਾਰਤ ਪ੍ਰਾਪਤ ਕਰੇਗਾ।
3. ਕੰਪਿਊਟਰ ਮੁਹਾਰਤ ਅਤੇ ਕੰਪਿਊਟਰ ਟਾਈਪ ਰਾਇਟਿੰਗ ਬਾਰੇ ਜ਼ਬਾਨੀ ਪੁੱਛੇ ਗਏ ਪ੍ਰਸ਼ਨਾਂ ਦੇ ਉੱਤਰ ਦੇਣ ਦੇ ਯੋਗ ਹੋਵੇਗਾ।

Time: 2 hrs

Time : 3 hrs

Theory: 30 Marks

Practical: 60 Marks

CCE: 10 Marks

Total: 100 Marks

Structure of Question Paper

In all, seventeen questions will be set from the prescribed syllabus. The question paper will comprise of three parts (Part-I, Part-II and Part-III). The questions will be evenly distributed from the prescribed syllabus.

Part-I will consist of seven objective type questions carrying 1 mark each. All questions will be compulsory to attempt. The answer of each question should not exceed more than one sentence.

Part-II will consist of eight short answer type questions carrying 3 marks each. Candidate will attempt any six questions out of these. A question may have two or more parts. The answer of each question should not be more than one page of the answer sheet.

Part-III will consist of two questions carrying 5 marks each. Candidate will attempt any one question out of these. The answer of each question should not be more than Two pages of the answer sheet.
